

Simple, yet effective and clean lubrication for overhead enclosed track conveyors.

Features/Benefits

- The OP-41A system lubricates chain pins and wheels while the conveyor is running under normal conditions
- Reduces downtime and manual labor operations in lubricating conveyor chain
- Properly lubricated conveyor can extend the life of conveyor components
- Eliminates surging caused by non-lubricated and worn chain and wheels, so product can be spaced closer, increasing productivity
- Conveyor runs smoother, keeps product from swaying, reducing possibility of injury on the line
- Helps reduce drive power requirements
- Less waste and contamination. A metered amount of lubricant is cleanly and precisely delivered to the chain and wheels
- The right lubrication system results in a clean operation – and saves you substantial amounts of time, work and money
